

BenchtopPRO™

Tackle The Toughest Parts Cleaning Jobs.
Just Clean. Close. Store.™

From the makers of the industry-leading CRC SmartWasher® system, the BenchtopPRO™ is a first-of-its-kind parts washer designed for home garages and small repair shops.

The BenchtopPRO™ is a water-based, self-contained, bioremediating parts washer that is as effective as solvent cleaners without the need to dispose of hazardous waste. The safe, strong, cleaning power of bioremediation, combined with solid construction and a unique portable and storable design, makes this the ultimate parts washing tool for any workshop.

NON-TOXIC

Engineered to clean without hazardous chemicals. Non-toxic. Non-flammable.

SELF-CLEANING

The degreasing solution continually cleans itself, so when you are ready to clean parts, the fluid is clean and ready.

STRONG

Built with solid, durable materials for long life and dependability.

STORABLE

The self-contained washing system's unique design is easy to store and use without needing to drain the cleaning solution.

HOME AND PROFESSIONAL APPLICATIONS

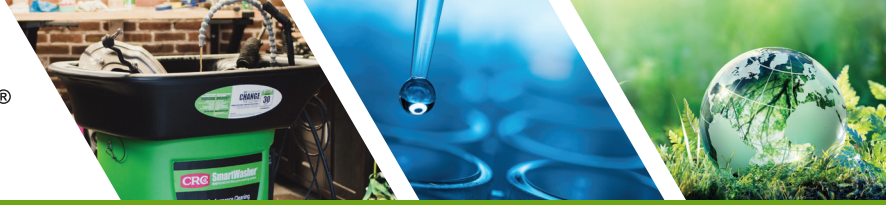

- Small Engine Repairs
- Household Equipment
- Lawnmowers, Chainsaws, and Outdoor Equipment
- Auto, Motorcycle, and Motorsports Maintenance and Repairs
- Snowmobile Service
- Bike Repair
- Marine Maintenance
- Many More Applications!

PATENTED BIOREMEDIATION TECHNOLOGY

Bioremediation is a safe, environmentally-friendly way to process many kinds of hazardous waste into harmless byproducts using the power of naturally-occurring microbes. Bioremediating parts cleaners are safer for humans as well as the environment. The bioremediation technology in the BenchtopPRO™ breaks down grease, oil, and carbon-based contaminants, converting them to byproducts of carbon dioxide and water. Microbes are an integral part of the bioremediation process.

BenchtopPRO™ KIT Includes:
